

"Let us guide you to a healthy smile."

Kathy T. Knox, DDS

Otego Family Dental, PC

Welcome!

We are delighted that you chose our office to care for your dental needs.

Our mission is to treat every one of our patient's as if they were our own family. We provide quality dentistry with a gentle touch. We take pride in guiding our family of patients to a healthy smile.

I have 33 years' experience in the field of dentistry. First, as a dental hygienist and then, as a dentist. I graduated from SUNY Stony Brook School of Dental Medicine in 2003. I am proud to provide gentle, family-oriented dental care to the adults and children of this community.

Our office combines the latest dental knowledge and technology with care and compassion. We offer treatment in general, cosmetic and restorative dentistry. We want you to have a positive dental experience. We use digital x-ray technology and use VelScope to aid in the detection of oral cancer. Also, we now have a new intraoral camera that aids in the detection of tooth decay.

Enclosed are patient information forms that you may complete at your convenience. Please mail them back to us in the enclosed return envelope or bring them with you to your appointment. If you have dental benefits, please bring your I.D. card to your first appointment. While we do not participate with any dental plans, we do submit claims on our patients' behalf.

The office is conveniently located on Main Street not far from the elementary school. Feel free to contact us if you have any questions.

We are happy to welcome you as a new patient and look forward to welcoming your entire family to our dental family.

Sincerely,

Kathy T. Knox DDS and team
